

Worksheet: Tremendous Trees 1

To do these activities you will need:

- a blindfold
- plain paper
- a pencil
- crayons
- a piece of chalk

Activity 1: Discover a tree

1. Choose a big tree for your partner to explore. Don't tell them which one it is!
2. Blindfold them. Carefully spin them around three times. You are now ready to take them on a journey of discovery.

When you reach the tree, encourage them to feel the bark and the roots.

What shape is the tree?	
Is the tree rough or smooth?	
Are plants growing on it?	
Can you find a leaf? What shape is it?	
What does the tree smell like?	
Can your partner hear any sounds?	

Worksheet: Tremendous Trees: 2

3. With the blindfold still on, take your partner back to the starting point. Take the blindfold off.
4. Give them two minutes to find their tree again!
5. It's your turn now...

Activity 2: What species (type) is your tree?

Use a field guide or the 'Tremendous Tree Type Guide' on the website to help you identify your tree.

My tree is:

Keep a record of your tree

Do a quick sketch of your tree and make a bark rubbing.

Take a leaf back to school to make a leaf print
